

FASTPITCH HEADQUARTERS

FPAAlert System

NEW UPDATED SERVICE THIS YEAR. YOU MUST RESUBSCRIBE!!

JUCO Kickoff Tournament will Use FPAAlert!

Our JUCO Kickoff Classic & Showcase will use the FPAAlert service of Fastpitch Headquarters in order to facilitate quick and efficient last-minute communications during the event with the teams and college coaches.

All teams and college coach recruiters MUST register at least one account with one email address. You also should register at least one cell phone numbers in order to receive text/email communications during the event, but we suggest that all coaches sign up. It is FREE to subscribe and there are no fees to users, other than what your cell service may charge.

We also highly encourage all teams to have your players and their parents register for this service, as well as your coaches and managers, as it will facilitate your communications with your team members. You can give a copy of this notice to your players and have them sign up to receive the tournament alerts.

To sign up:

Go to <http://fastpitch.ealert.com> and click on "Signup" in the top menu. Set up your account with an email address and a password. On the next page, select "Add Cell or Email". You can subscribe either email addresses or cell numbers. If your cell phone carrier is listed then enter it using the Cell/SMS button, but if your cell phone carrier is not listed, you will need to enter your cell phone as an email address (see information below on how to convert your cell number to an email address). After entering your email or cell number, you need to open the Subscription Category of "College Tournaments" by clicking it to open and select "College Tournament (FL) - JUCO Kickoff Classic" listed. You can also select any other groups from any category that you want to receive alerts or have previously subscribed to. You can register as many email addresses and cell phone numbers as you want.

Once you register an email address or cell number, you will receive a confirmation text message or email right away with a verification code. Click on Modify Alerts on the Account Management page to enter the verification code and you are all set up. If you do not receive the confirmation message within a few minutes, you did not enter your email or cell number properly so check them for accuracy and try again.

If you receive text messages only on your phone, we highly recommend that you subscribe your cell phone number in addition to your email address. You need to be able to receive these communications while away from your home computer. But if you receive emails on your phone then either or both addresses are good.

If you have any problems or questions, please contact Patti Shotwell at FPHQ at 954-540-7850.

HOW TO CONVERT CELL PHONE NUMBERS TO EMAIL ADDRESSES:

If your cellular phone, PDA, or pager is capable of receiving text messages, you can receive FPAAlerts on your cell phone. If your cell provider is not one of the options on the signup page, you need to subscribe your cell number like an email address. You should ask your cell service provider for your text message email address or use the examples below for various providers. NOTE: DO NOT PUT DASHES IN THE ADDRESSES.

- Alltel: your 10 digit number@message.alltel.com
- AT&T: your 10 digit number@txt.att.net (previously your 10 digit number@mobile.att.net)
- Boost Mobile: your 10 digit number@myboostmobile.com
- Cingular: your 10 digit number@cingularme.com or 10 digit number @txt.att.net
- Metro PCS: your 10 digit number@mymetropcs.com
- Nextel: your 10 digit number@messaging.nextel.com
- Sprint: your 10 digit number@messaging.sprintpcs.com
- T-Mobile: your 10 digit number@tmomail.net
- US Cellular: your 10 digit number@email.uscc.net
- Verizon: your 10 digit number@vtext.com
- Virgin Mobile: your 10 digit number@vmobl.com
- Rogers (Canada): your 10 digit number@pcs.rogers.net
- SkyTel (Canada): your pager PIN or Personal Access Number@skytel.com
- Arch Wireless: your pager PIN@archwireless.net
- Cellular South: cellnumber@csouth1.com

If these do not work, please check with your provider to obtain the most recent access method and to make sure that your cellular phone or PDA is authorized to receive text or email messages. We also have a list on our www.fastpitchheadquarters.com website of Smaller US and International Cell Phone Conversions.
